November 30, 2010

Mr. Barr,

I want to thank you for the outstanding presentation you made at Alexander Adaire School on November 30, 2010. The *Rapping About Prevention* Program was enjoyable and informative for both the students and staff. You are a talented and charismatic performer and the energy was contagious. The message was clear and our students understood the seriousness of eating healthy foods and exercising regularly. After the presentation, there was further discussion in our classrooms and among our staff.

You provided a direct service to our students. Your commitment to sharing the information about healthy lifestyle choices the way you do is commendable. I appreciate how your performance was adjusted for each of the audiences based on their age and was well received.

You are passionate about this cause and we appreciate the time you invested in us.

Thanks again,

Robert Mc Grogan
